LAB GROWN DIAMOND JEWELRY

Not all lab-grown diamonds are equal! Like mined diamonds, a gray tint or less-than-perfect cut can make one diamond look worse than another even if it's the same carat, color, and clarity grade. We hand-select only 1 out of every 10 lab-grown diamonds that are pure white, well cut, and brilliant. You may be able to find lab-grown diamonds for less, but they won't look as good as ours!
